A lot of hard work and time went in to making it such a success, thank you! It was wonderful to see families and community enjoying such a sociable and fun occasion!

Transition Day - Wednesday 3rd July

Children will go to their new classroom doors in the morning and will be collected from their normal gates (at their usual times) at the end of the school day. Swimming lessons/PE will remain the same as normal.

Online Safety

A 2023 report from the Gambling Commission found that 40% of 11–to 17-year-olds had some experience of gambling in the preceding 12 months. That’s a significant number of children and young people involved in an over 18s activity. Engagement and exposure to gambling can impact one’s finances, mental health and wellbeing. It is crucial we are all aware of the risks and know how to protect and support our children.

It is quite challenging to protect our children against exposure to gambling at any time, but especially around major sport events like Euro 2024. This week's guide tackles the most prominent risks that gambling poses to young people, and explains how best to protect against them.
